EXPERIENCE

ISD, Dnipro UKRAINE http://isd.dp.ua Database administrator team lead	11/2009 – Present
--	-------------------

As a part of international DBA crew, we perform 24x7 support of 400 Oracle database servers about as a business associate of SCC Soft Computer <https://www.softcomputer.com> Most Oracle servers are placed at North America. Key projects:

- Unbreakable Oracle data availability for customers and the end products via on-line Oracle databases' pro-active and re-active health monitoring
- Fault tolerance via hardware redundancy and specialized software
- High availability via Oracle Data Guard and Automatic Storage Management features
- Backup consistence via everyday backup and backup validation
- License management and inventory software
- Data scrambling
- Co-operation with software developers to perfect the end products constantly
- Improving employee qualifications
